To Prevent New Windows From Sticking—Other Household Hints—Late Fall Fashions—Shirred Velvet Hats—Many One-sided Effects—Raglan Sleeve Still Used—Recipe for Grape Marmalade.

HOUSEHOLD HINTS.

To prevent newly painted windows from sticking, open and run them up and down two or three times a day for three or four days. Unless this is done the windows are almost always bound to stick.

When hanging clothes to dry, remember always to hang stockings by the toes, nightdresses by the shoulders, and skirts by the hem, and so prevent them from dragging out of shape.

Steel knives that are not in general use may be kept from rusting if they are dipped in a strong solution of soda—one part of water to four parts of soda—then wiped dry, rolled in flannel, and kept in a dry place.

The juice of raw potatoes is excellent for removing stains from the hands and from woolen fabrics.

THE LATEST FASHIONS.

WELL, DAD, IT'S TIME YOU WERE THINKING ABOUT DIGGING FOR GWENDOLYN'S WINTER MILLINERY

These photographs are for Dad and Gwendolyn. They show the latest thing in millinery direct from Paris. They will be the rage this winter, and Dad might as well begin to think about them. Gwendolyn's got to have the hats and Dad's got to pay for them. These samples are published early that he may have warning of what will confront him a few weeks hence.

The hats illustrated are all lovely creations, Dad. If you get one for Gwendolyn some young fellow might come along to pay her expenses for the rest of her life.

miserable coward. He personally directed the murder of women and children by his soldiers and when he is surrounded by the British troops his first tries to hide and then falls on his knees to beg for his life.

The film has been shown in thousands of moving picture houses throughout India and also in all of the English colonies in the far west. The public of Bangkok did not see it, however, as it was barred by the Siamese authorities.

LOAF SUGAR SCARCE IN MERIE ENGLAND

London, Sept. 23.—The big grocery firms in various parts of England have sent circulars to their customers asking them to exercise the greatest possible economy in the use of loaf sugar, which is very popular in England for cooking, canning and similar purposes. The grocers suggest the substitution of brown sugar for most uses.

Before the war the bulk of the loaf sugar used in England was imported from Austria, Germany and Belgium. This supply has been cut off and there is therefore a considerable deficiency, which the few loaf-sugar refineries in England cannot make up. There has been no advance in price, however, as this is controlled by the royal commission on sugar.

HOOKWORM INFECTS MILLIONS OF PEOPLE

New York, Sept. 23.—The Rockefeller Foundation, in making public tonight its annual report, covering the period to the end of 1914, tells what has been accomplished by its international health commission in mitigating the ravages of the hookworm disease in tropical countries. The report says the relief and control of the disease is an undertaking of enormous magnitude, as the infection belts the globe in a zone on

both sides of the equator 66 degrees wide and with a population of about 900,000,000 souls.

Thus far plans have been adopted and work begun for the control of the disease in British Guiana, Antigua, Trinidad, St. Lucia, Grenada and Egypt.

In addition to the work undertaken in the British colonies, the commission has responded favorably to invitations from several Central American countries, and work has been inaugurated in Panama, Nicaragua, Costa Rica and Guatemala.

SAFE PASSAGE FOR THE EMBASSADOR

Washington, Sept. 23.—The state department still maintains its rigid attitude of refusal to apply for safe passage for Ambassador Dumba until the Austrian foreign office notifies the United States that it has actually recalled him.

Officials of the department believe that Austria, in order to expedite the departure of her ambassador on September 28, with Madame Dumba, will hasten its notification of recall to the state department.

The department also has under consideration the case of Captain Franz Von Papan, the German military attaché, whose utterances in his published letters have subjected him, in the opinion of officials, to recall. It was reported unofficially today at the state department that Captain Von Papan intends to go to Mexico. He is said to be at San Francisco now, but the state department has no indication that he intends to leave the United States. Officials were not willing to discuss the suggestion that Captain Von Papan, by leaving the United States, might dispose of the question of his recall and that the matter would thus settle itself automatically. The state department was asked today as to the degree of offense in the term "idiotic Yankees" used by Captain Von Papan, but would not render an opinion.

The state department has sent all the communications it had received bearing on the Dumba and Von Papan cases to the department of justice.

London, Sept. 24, 12:26 a. m.—A Berlin wireless dispatch says a telegram has been sent by Dr. Constantin Dumba, the Austro-Hungarian ambassador to the United States, to the Austro-Hungarian foreign office, asking urgently for a decision respecting his application for leave in order to report personally to his government.

M'NALLY CASE NEARS END
Pocatello, Idaho, Sept. 23.—Ten witnesses were cross-examined today in the McNally murder case. The evidence is nearly all in and pleas will probably be heard tomorrow. Colonel Ferguson, Robert Terrill and Attorney Leckhart are for the defense and Prosecutor Smith and Judge Stevens are prosecuting.

REV. GEORGE F. LOWE OF OGDEN HEAD OF BAPTISTS

Salt Lake, Sept. 23.—Marked by the largest attendance in the history of the denomination in Utah, the most distinctive enthusiasm and the most complete harmony in the working out of the problems presented, the Utah Baptist state convention was brought to a close last night at the Burlington Baptist church after nine sessions, extending over a period of three days.

The feature of the morning session was the address of the Rev. L. S. Bowerman, pastor of the Immanuel Baptist church, Salt Lake, on "Filling the Minimum Basis of Giving."

Dr. Bowerman strongly advocated the 10 per cent donation system as adopted and urged by the Mormon church. A general discussion of the problems of educational advancement in the church took up a large portion of the afternoon session, and the establishment of a \$5,000,000 endowment fund for educational purposes within the next five years was advocated and approved. The question of compensation for the supernumerary workers in the church was also considered, the sentiment of the convention being for a \$2,000,000 fund for this end.

At the conclusion of the afternoon session luncheon was served in the church hall, ministers of other denominations and prominent laymen of the city being guests of honor to the number of about twenty, among them being E. G. Caster, local secretary of the Y. M. C. A., and Lieutenant V. R. Bell of the U. S. A.

The Rev. Dr. George F. Lowe, of Los Angeles and the Rev. Dr. Springston of Portland, Ore., delivered the principal addresses at the evening session.

The annual election of officers was held yesterday morning, resulting as follows:

The Doctor's Advice

by Dr. Lewis Baker

"Poorly" writes: "I have chronic constipation and my head aches all the time. I am nervous and don't sleep well. I have fever and my skin is muddy and my tongue coated. My eyes are dull and I feel tired and weak."

Answer: What you need is a good laxative and blood purifier. Clean your system thoroughly with three grain sulphur tablets (not sulphur). These tablets act on the bowels and aid digestion and purify your blood. Their use will drive away the tired feeling and other symptoms.

"Proud" says: "I have always been proud of my hair until late, when it has acquired an ugly, greasy stringy appearance, and my scalp is covered with scales and itches terribly. What may I do?"

Answer: You should use plain yellow mayonaisse to relieve the scalp of dandruff and itching. It acts as a tonic to the scalp and hair strands and promotes a beautiful luxuriant growth of hair. Clip the ends of the hair about half an inch, to get rid of broken ends.

"Model" writes: "I have been a perfect thirty-eight in size until the last few months when I have gained about 25 pounds too much flesh. Please prescribe."

Answer: You will find a very harmless and successful flesh reducer in the use of carbolic tablets. Put in sealed tubes with directions for home use.

Bertha L. Hurst, 241 West First North, Provo; Myrtle A. Jones, 345 East Fifth North, Provo; William H. Whitcomb, Tremonton; Jenn Williams, 384 East First North, Provo.

Five-year state certificates—Jeanette Allen, Kingston; Anna Carruth, Coalville; Elwood M. Christensen, 55 East Sixth North, Provo; Blanche Childs, Springville; Ivan C. Dalby, Levan; Pauline Fuller, general delivery, Salt Lake City; Albert Meldrum, R. F. D. No. 2, box 86, Provo; Minnie Miller, 871 Coatsville avenue, City; Francis F. Smith, Garfield; Fern Watson, Mount Pleasant.

Extension of five-year certificates—Caroline Rasmussen, Nephi; Charles M. Smith, Ogden; R. F. D. No. 2; Stephen F. Stephenson, Levan.

Special certificates—Bessie E. Daniels, 119 N. street, Salt Lake City, domestic science; Frank H. Eastmond, 270 West North Temple, Salt Lake City, manual training and art; J. M. Boyden, Mount Pleasant, music; Aaron E. Johnson, Lehi, music; Juanita Johnson, Brigham City, high school home economics; Max W. Meharg, Park City, manual training; Elmer T. Noall, 520 West Fourth North, Salt Lake City, manual arts; Dean A. Pack, Goshen, music; W. F. Robinson, Murray, music; Marie Simmons, 260 Thirteenth East, Salt Lake City, domestic science; Ina R. Stratford, Lehi, domestic science and art; M. M. Taylor, Moroni, music; Ethel M. Thomas, 114 Twenty-eighth street, Ogden, music; Carrie V. Knapp, 3163 Jefferson avenue, Ogden, art.

NEW GERMAN LOAN EMPHATIC SUCCESS

Berlin, Sept. 24, via London, 12:40 p. m.—All accounts agree that the new German war loan is an emphatic success. Dresden and vicinity subscribed 255,000,000 (\$63,750,000) as compared with 211,000,000 marks for the March loan. Cassel subscribed 100,000,000 marks, as compared with 77,000,000 in March; the Dusseldorf branch of the Reichsbank 468,000,000 as against 230,000,000; the Dortmund branch, with four adjacent offices, 77,000,000 as against 32,000,000.

BEET CROP LIGHT.

Springville, Sept. 23.—The farmers here, who are now harvesting their beet crop are very much disappointed in the way the crop is turning out. While the tops look healthy and would indicate a good, heavy crop, when they are dug the beets are exceptionally small, and will cut the tonnage down on that account to about one-half what is usually produced on an acre. The trouble appears to be general here and the farmers are at a loss to account for the reason without it is in the seed used.

Out of Sorts

THAT IS, something is wrong with baby, but we can't tell just what it is. All mothers recognize the term by the lassitude, weakness, loss of appetite, inclination to sleep, heavy breathing, and lack of interest shown by baby. These are the symptoms of sickness. It may be fever, congestion, worms, croup, diphtheria, or scarlatina. Do not lose a minute. Give the child Castoria. It will start the digestive organs into operation, open the pores of the skin, carry off the fetid matter, and drive away the threatened sickness.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*
